 - Enterprise-ready architecture
-

Frequently Asked Questions

Does LearningDeck work without internet?

Yes. LearningDeck Offline works completely without internet, while LearningDeck Cloud allows schools to deploy exams locally after syncing online.

Can schools use their own branding?

Yes. Schools can add their logos, themes, and custom branding depending on their plan.

Do students need internet during exams?

No. Exams can run entirely over a local network.

Is there a free version?

Yes. LearningDeck Cloud includes a free Starter plan for evaluation and small testing environments.

Can LearningDeck be customized?

Yes. Schools can request custom plugins, templates, integrations, and deployment configurations.
